DO YOU LOOK LIKE YOUR DOG?

BRIARPATCH'S HOWLING NEW BOARD GAME WILL HELP YOU FIND OUT!

Millburn, NJ (April 2, 2007) – Have you ever noticed how some people and their dogs look alike? Sometimes tall thin people with long faces choose Afghan hounds. Larger people tend to select big dogs. Active people usually select sporty dogs. And those with a large family usually have larger fluffy dogs that can withstand playful children.

Briarpatch took this phenomenon to the playroom and created a howling good board game, Do You Look Like Your Dog? Now, winding up in the doghouse is a good thing. But keep those paws off the table, this is for two-legged players ages 7+.

“Are you a Shitzu or a Shepherd?” asks George Schimpf, VP of Marketing for Briarpatch. “People do look like their dogs, and if you have any doubts that you do, in this game you are about to find out!”

Do You Look Like Your Dog? Game • \$19.99

In this outrageous game, players match dogs to owners and owners to dogs, and try to earn bones from other players, who vote on the best matches. Players have 30 seconds to state their case and bury their bones. And just when you think you are home free, you may find your opponent sneaking into your doghouse, and referring to you as a Shitzu! In the end, everyone's bark is worse than their bite! Each game comes with 20 Owner Cards, 20 Dog Cards, 8 Go to the Dog House Cards, 24 Bones, 4 Tokens and game board. Complete game rules included. Designed for 2-4 players. Ages 7+

About Briarpatch
